

PRESIDENT DIAZ IS AT THE HELM

Takes Personal Charge And Directs Army Movements

Spirit Of The Revolt Is Spreading Very Rapidly

Mexico City, Nov. 22.—General Luque, hero of the recent uprising in Yucatan, in command of the Tenth regiment of regular infantry, hastened to Orizaba by special train, and was there reinforced by two companies of regular infantry fresh from their victory over rebels at Puebla. There have been insistent reports of serious trouble at Orizaba, but owing to the strict censorship which has been maintained by the government, which has seized all the telegraph lines, it is impossible to get at the facts in the matter.

The war office here is a scene of great activity. All attaches are working at top speed and troops are being sent out to all points as fast as they can be mobilized and trains secured for their transportation. President Diaz himself has taken personal charge of the situation and is planning the various movements designed to quell the uprising. He is overlooking no detail that will tend to restore order and crush the conspiracy against the government. It is evident that he regards the outlook as serious, as he has summoned Vice President Corral from Tehuacan, where he has been taking the baths for some time because of ill health.

Discontent Reaches Army. Alarming reports were circulated of disaffection in the army. Government officials strongly deny this, but it is known that agents of the revolutionists have been for some time working among the soldiers in the various garrisons, and it would not be surprising to learn that they had won over many of the rank and file to their cause. A press dispatch carried the assertion that an entire regiment at Chihuahua had gone over to the revolutionists, but this is denied by the government.

An American of the name of James M. Reed was shot and killed in the Alameda, a park in the center of the city here. The policeman who did the shooting says that Reed and several other Americans were drunk, and when he tried to induce them to go home Reed drew a revolver and fired one shot, which barely missed the policeman. It was then that Reed was killed. When the body was searched no revolver was found, and this has thrown doubt on the story told by the police. Reed's companion was arrested and is in jail, but thus far has no statement for publication. His name is Loller. Little is known of his antecedents.

REPORTS ALL QUIET

Wilson Says Diaz Has Situation Well In Hand.

Washington, Nov. 22.—Instructions were sent to Brigadier General Hoyt, commanding the department of Texas, with headquarters at Fort Sam Houston, near San Antonio, to hold his troops in readiness for service in enforcing the neutrality law. This action was taken by Major General Leonard Wood, chief of staff of the army, upon the recommendation of Secretary of State Knox.

A dispatch was received at the state department from Henry Lane Wilson, American ambassador at Mexico City, saying that the Diaz government was strong enough to suppress the rebels. The movements at Puebla and Juarez, he said, were under control. The newspaper Pais, he added, had been publishing inflammatory articles, and the ambassador expressed the belief that it would probably be suppressed.

Luther T. Ellsworth, American consul at Ciudad Porfirio Diaz, also telegraphed to the department, although there was considerable un-

Predicted He Will Head
the Revolt Against Diaz.

rest along the border, the situation on the American side was under control.

REYES IS POPULAR

Man Who Recently Opposed Diaz May Take Charge of Revolt.

El Paso, Tex., Nov. 22.—At Orizaba, Guerrero and Hernandez trouble was reported, but no confirmation came to the reported battle and great slaughter at Zacatecas, although persistent rumors of such a fight continue to be received. At Guerrero and Hernandez the troops have suppressed the rioting, and at Orizaba the soldiers arrived in time to prevent bloodshed, although dissatisfied workmen in the mills at that place stoned the mills, broke many windows and attempted to set fire to several manufacturing plants before subdued.

The report is persistent along the border that General Bernardo Reyes, who was made to resign as governor of Nuevo Leon because his friends supported him for vice president, is coming back from Europe, where he was sent "on a military mission" soon after he was forced out of office, and the revolutionists have faith that he will lead them. If he does, a large part of the army can be expected to follow him. Miguel Cardenas, former governor of Coahuila, also forced out of office because he supported Reyes, is said to be ready to join Reyes if he takes up a campaign against Diaz.

BOTH SIDES VICTORIOUS

Rebels Take City, Then Flee to the Mountains.

City of Mexico, Nov. 22.—Revolutionists in large numbers attacked and captured Gomez Palacio, an important town in Torreon. During the fighting the government troops were driven out, but later they were reinforced, and under Colonel Ismael Zuniga, they attacked the town in turn, driving out the insurgents and chasing them into the mountains. Many were killed and wounded on both sides.

Resort to Conscriptions. Laredo, Tex., Nov. 22.—The Mexican government is conscripting in

Metropolitan Museum of Art at Last Headed by an American

When Sir Casper Purdon Clarke resigned as director of the Metropolitan Museum of Art, J. Pierpont Morgan and the other directors hurried to Europe to find another director. They spent many weeks going over the list of candidates, but failed to find the proper man. Discouraged, they returned to the United States and found the very man they were seeking. Dr. Edward Robinson has been selected for the post, and he is a native of Boston. He was born in 1858 and is a graduate of Harvard. He spent many years in Paris and Greece studying art and was decorated by the German emperor. Dr. Robinson expects to enlarge the museum, and, while it is now the most famous in the United States, he plans to make it the most famous in the world.

all its frontier towns and rushing troops to points along the border where there is great danger of outbreaks. Hard fighting with revolutionists has been reported at several points and there is much excitement along the national boundary. General Villar has received reports that there was a hot fight at Camargo, a small town on the Rio Grande, 129 miles below Laredo. Before the report was complete the wires were cut. For the first time in the 15 years of operation the leased press wire from Laredo to Monterey and Mexico City was commandeered by the Mexican government on the plea of military need.

TWO BURN TO DEATH

Pittsburg, Nov. 22.—Howard Dickert, 16, and Wilbur Allery, 16, were burned to death in their sleep when fire destroyed the tool shed of the Baltimore & Ohio railroad at Glenwood.

Canal Probe Date Set.

Columbus, O., Nov. 22.—Attorney General Denman said that the canal graft probe would start again next Monday. He is inclined to think that it will not last long after it is started again, as none but material witnesses will be heard.

KILLED IN AN EXPLOSION WAS AN ASHLAND MAN

Ashland, O., Nov. 22.—Stolen gas caused an explosion that wrecked the home of Loren Shoppell and resulted in his death. The Logan Natural Gas company shut off the gas at Shoppell's home last spring and took out the meter. He connected the pipes himself and turned on the gas at the street valve by means of an improvised key, and enjoyed its warmth. In the night his wife aroused him

declaring that she smelled gas. He laughed at her fears, but started out to investigate. The gas seemed to be up stairs. "Don't take any matches," his wife called to him. "There's no danger," he retorted, grabbing a bunch. A moment later there was an explosion that blew out the entire front of the house and shook the town for many blocks. Shoppell was blown into his front yard.

to the success and brilliancy of the Madison Square Garden exhibition.

That the show will be successful is assured by the record-breaking number of entries. The gaited saddle horse, the roadster, the four-in-hand and tandem team and runabout classes have brought out a higher class of entries than ever before. Alfred G. Vanderbilt, Lord Pebles and other men of international reputation are included among the judges who will pass on the various classes.

INTERNATIONAL HORSE SHOW IN CHICAGO Chicago, Nov. 22.—With a blare of trumpets and a flutter of finery the International Horse Show opened today in the great amphitheatre at the Union Stock Yards, to be continued until the end of the week. Included among the exhibits are many of the prize-winners seen at the recent New York show, and among the participants are all of the American and European cavalry riders who contributed so much

MADE CLEAN-UP OF \$50,000,000

Hitchcock Causes Arrest Of Brokers On Fraud Charge

A Director Of A Wireless Concern Is Also Held

New York, Nov. 22.—Sheldon C. Burr, Eugene E. Burr and F. C. Tobey, members of the firm of Burr Brothers, stock brokers, arrested on a charge of using the mails to defraud, were held in \$20,000 by United States Commissioner Shields. They pleaded not guilty, and at the request of counsel were given time to secure bail.

Charles L. Vaughan, a director of the Continental Wireless Telegraph and Telephone company, incorporated in Arizona, was taken into custody and held in \$10,000 bail. Inspectors say he has sold stock to the amount of at least \$1,000,000, which has brought in no return to the investors.

Postmaster General Hitchcock, who was in court when the men were arraigned, declared that the raid was one of the most important ever made by the postoffice inspectors.

"These men were concerned in one of the worst swindles in the history of the country," said Hitchcock. "It is not an exaggeration to say that since the firm was organized in 1907 it has unloaded between \$40,000,000 and \$50,000,000 of worthless oil and mining stocks on an unsuspecting public. The worst of it was that the money had been paid by persons of small means, who could ill afford to be swindled. Other arrests are to follow."

Operated In Ohio.

At one time the Burr company operated offices in Cleveland, Chicago and other western cities.

Postmaster General Hitchcock gave out an official memorandum concerning the Burr Brothers. The memorandum states that among other companies, the Burr Brothers are selling the stock of the Burr Co.

TRACKED BY HOUNDS MURDERER IS ARRESTED

Maryville, Mo., Nov. 22.—As a result of a poker game in which Oda Hubbell won all the money, \$200, Hubbell and his wife and two small children were murdered in their home in this county, and their bodies burned in an effort to conceal the crime by Hez Rasco, a young neighbor, who lost the money, according to the police.

Officers captured young Rasco in a cornfield. He denied that he had killed the Hubbells and attempted to prove an alibi. Bloodhounds took the scent at the Hubbell home and followed it direct to Hez Rasco's room

BURGLARS ESCAPE

Youngstown, O., Nov. 22.—Two men, believed to be members of the gang of safe-crackers who have been terrorizing Ohio for the past fortnight, are under arrest here, and a third man was shot and escaped as a result of a battle between them and watchmen at the Bloch Light company's plant, a mile north of the city. The men under arrest gave the names of Frank Engle and Thomas Scalpen.

Shall Women Vote?

If they did, millions would vote Dr. King's New Life Pills the true remedy for women. For bartering dull, aching feelings, backache or head ache, constipation, dispelling colds, imparting appetite and toning up the system, they're unequalled. Easy, safe, sure. 25c at G. R. Baker, and F. Fluk of Fredericktown.

BANNER WANT ADS PAY

TO ERADICATE THE BOLL WEEVIL

Atlanta, Ga., Nov. 22.—Co-operation and scientific methods in an aggressive campaign to eradicate the boll weevil, which has already cost the cotton growers of the South millions of dollars and which now threatens still greater losses by spreading into states where it has not appeared heretofore, are the aims of the Boll Weevil Congress, which assembled in this city today for a two days' session.

The commissioners of agriculture of the various states, experts from the Department of Agriculture at Washington and from the agricultural colleges and experiment stations throughout the South, together with a large number of planters, merchants and manufacturers whose prosperity depends upon the cotton industry, make up the attendance at the congress.

The congress met for organization in the Auditorium this afternoon. Mayor Maddox and President Paxton of the Atlanta Chamber of Commerce greeted the delegates, and H. G. Hastings explained the objects of the conference. E. L. Wosham, state entomologist of Georgia, delivered an address on the boll weevil and its work of destruction.

CHRONIC ULCERS INDICATE BAD BLOOD

Where the blood is pure any wound or laceration of the flesh heals "by first intention." This is true because nature has provided a constituent to the circulation known as Plasma, which joins and holds the place together until the fibres and tissues can permanently knit and interweave. Whenever the ulcer becomes chronic it is because this healing quality of the blood has been impaired by some impurity in the circulation, and the place remains open, infecting all surrounding flesh, until the character of the circulation is changed. No sore can heal where the blood is bad; because the morbid impurities on which it thrives are constantly deposited into it by the burdened circulation. Cleanse the blood and the sore will heal of its own accord, because then its very source and foundation will have been destroyed. S. S. S. cures Chronic Ulcers of every kind for the one great reason that it thoroughly purifies the blood. It goes into the circulation and removes every particle of infectious or morbid matter, enriches the corpuscles, and assists nature in the formation of the necessary plasmic qualities of this vital fluid. No matter from what source the impurities of the blood come, S. S. S. will remove them. Book on Sores and Ulcers and any medical advice free to all who write. THE SWIFT SPECIFIC CO., Atlanta, Ga.
